About this course

- This course provides foundational level knowledge on cloud concepts; core Azure architecture and services; and Azure management and governance.
- The audience for this course is just beginning to learn about cloud computing and how Microsoft Azure provides that service.
- This is a one-day course, the content aligns to the AZ-900 exam objective domain.
- It's recommended that you have an IT background for this course.

Course Agenda

Module 01 – Cloud concepts

Module 02 – Azure architecture and services

Module 03 – Azure management and governance

Certification areas (AZ-900)

Study areas	Weight
Describe Cloud Concepts	25-30%
Describe Azure architecture and services	35-40%
Describe Azure management and governance	30-35%

- This course maps directly to the exam AZ-900 Microsoft Azure Fundamentals.
- Percentages indicate the relative weight of each area on the exam.
- The higher the percentage, the more questions you are likely to see in that area.

Labs – Microsoft Learn Sandbox

MS Learn Sandbox – The majority of the labs work from the Sandbox on Microsoft Learn, and will have a link from the course materials. A few labs are optional and require the learner to have their own subscription (but a free subscription will suffice).
